EDUCATION

Maharishi Dayanand University (MDU)

Bachelor of Computer Applications

Aug. 2021 – May 2024

Faridabad, India

COURSEWORK

- | | | | |
|--------------------------------|-------------------|---------|--------|
| • Data Structures & Algorithms | • Web Development | • C/C++ | • Java |
| • Object Oriented Programming | • Networking | • .NET | • DBMS |

TECHNICAL SKILLS

Languages: JavaScript, HTML5/CSS3

Design Tools: Figma

Frameworks: SCSS, Sass, Bootstrap, Material-UI, Tailwind CSS

Developer Tools: Git, GitHub, VS Code, IntelliJ, Eclipse

Libraries: React.js, Redux Toolkit, Framer Motion, GSAP

EXPERIENCE

Innobyte Services Pvt Ltd

Web Developer Intern

June 2024 – Present

Remote

- Optimized code splitting and lazy loading techniques in **React.js** applications to enhance performance.
- Crafted responsive UIs and dynamic components utilizing **React.js** and **Tailwind CSS**.
- Achieved a **35%** performance boost and decreased loading times through strategic application improvements.
- Oversaw GitHub repositories to enhance version control and code quality.

PROJECTS

LuxeLoom | *React, Tailwind CSS, Redux, Firebase* (Live Link) (GitHub)

April 2024

- Engineered a robust ecommerce platform using **React.js** and **Redux Toolkit**, ensuring seamless CRUD operations and scalability.
- Implemented secure user authentication and optimized database management with **Firestore**, reducing unauthorized access incidents by 80% and enhancing data retrieval efficiency by 60%.
- Designed a responsive UI using Tailwind CSS and Headless UI, focusing on user-centric design and accessibility. Validated for 90% responsiveness with tools like Responsivator.
- Increased operational efficiency by 80% through effective product management and the development of an intuitive admin dashboard.

Intelligennie | *React, Tailwind CSS, Google Gemini API* (Live Link) (GitHub)

July 2024

- Created an intelligent chatbot using **React** and **Tailwind CSS**, integrating the **Google Gemini API** for advanced natural language processing.
- Executed **SEO Optimization** strategies to enhance search engine visibility, achieving a performance score of 99 and an SEO score of 90 in Lighthouse audits.
- Refined API response times through strategic caching, lazy loading, and debouncing, reducing average latency by 40%.
- Monitored performance and user engagement with analytics tools, improving chatbot interaction efficiency by 25%.

Portfolio Website | *React.js, Tailwind CSS, AcernityUI* (Live Link) (GitHub)

May 2024

- Developed a portfolio showcasing projects, leveraging React.js and Tailwind CSS, resulting in a 40% reduction in load times. Crafted responsive UIs, enhancing accessibility and cross-browser compatibility.
- Incorporated AcernityUI for seamless animations, increasing user retention by 35% and enhancing overall website performance.

CodeClan | *React, Redux, Firebase, Material Tailwind* (Live Link) (GitHub)

April 2024

- Constructed a robust admin control dashboard that enables administrators to create and manage blog posts, enhancing content management efficiency by **25%**.
- Utilized the **TinyMCE** API for a rich text editing experience, facilitating seamless content creation with a WYSIWYG interface.

PASSIONS

Web Development, Learning new Technologies.
